Public Affairs Consultant

Role:
Grant Administrator

Education:
Associate of Arts Degree in
General Studies
Daytona State College

Member Affiliations:
National Grants Management
Association

ashows@langtonconsulting.com

Bio Narrative:

Ashley is the newest member of the Langton team. Since being hired on as a Grant Administrator she has proven to be an asset with her diverse background in finance. After graduating from Daytona State College with her Associate of Art degree, she then pursued a career in the finance industry and gained extensive knowledge in federal regulations and compliance. She played a vital role in mitigating fraud through her attention to detail and in-depth research. Her expertise was showcased when she successfully started a de novo financial institution and took the lead in client acquisition and retention. Ashley also has extensive experience with performing audits on several different levels and maintaining organized records throughout the process. Her well-rounded proficiency in these areas has made her a valuable asset to our Grants Administration Division.

In 2023, Ashley underwent intensive training through our internal *Grants Administration Staff Training Program*, and is already demonstrating her talents by performing grants administration duties for seven (2) CDBG-DR, CDBG-MIT and CDBG-CV Program grant awards undergoing the implementation process.
